## Updates

- **July 14, 2011:** The Siemon Company has approved the JDSU Certifier 40G field tester for testing of all Category 5e, Category 6, and Category 6A System Warranties.
- **June 9, 2011:** The Siemon Company has approved the JDSU Certifier 40G field tester for testing of the TERA Warranties.

### Solution 5e<sup>®</sup>, PREMIUM 5e<sup>®</sup>

Tester Model	SW Version	Link Adapter <sup>4</sup>	Channel Adapter
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-6ALKIT2 <sup>5</sup>	NGC-4500-6ACH2

### SYSTEM 6<sup>®</sup>, PREMIUM 6<sup>®</sup>

Tester Model	Software Version	Link Adapter	Permanent Link Test	Channel Adapter	Channel Test
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-6ALKIT2 <sup>5</sup>	TIA Cat 6 PL	NGC-4500-6ACH2	TIA Cat 6 Ch

### Z-MAX™ 6A

Tester Model	Software Version	Link Adapter	Permanent Link Test	Channel Adapter	Channel Test
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-6ALKIT2 <sup>5</sup>	TIA Cat 6A PL	NGC-4500-6ACH2	TIA Cat 6A Ch or ISO ClassEa Ch AMD1

## TERA® 600

Tester Model	Software Version	Link Adapter	Link Test	Channel Adapter	Channel Test
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-TERAL2	ISO-Class F Link PL3 <sup>4</sup> ISO-Class F Link PL1/PL2/CP <sup>2,3</sup>	NGC-4500-TERACH2	ISO Class F Channel

## TERA® 1000

Tester Model	Software Version	Link Adapter	Link Test	Channel Adapter	Channel Test
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-TERAL2	ISO-Class FA Link PL3 <sup>4</sup> ISO-Class FA Link PL1/PL2/CP <sup>2,3</sup>	NGC-4500-TERACH2	ISO Class FA Channel

## TERA® 1200

Tester Model	Software Version	Link Adapter	Link Test	Channel Adapter	Channel Test
NGC-4500-FA-xx <sup>1</sup>	3.6	NGC-4500-TERAL2	ISO Class FA Link PL3 <sup>4</sup> ISO-Class FA Link PL1/PL2/CP <sup>2,3</sup>	NGC-4500-TERACH2	ISO Class FA Channel

### Notes:

<sup>1</sup> The part number NGC-4500-FA-xx Main unit with Cat6A/Class EA PL and channel adapters (xx is country specific – defines the power cord. –NA, -UK, -EU, -AU).

<sup>2</sup>The ISO-Class F Link PL1 is for 2 connector Patch Panel to Patch Panel and CP is for 2 connector patch panel to consolidation point link.

<sup>3</sup> The ISO-Class F Link PL2 is for 2 connector Patch Panel to TO permanent link.

<sup>4</sup>The ISO-Class F Link PL3 test option refers to a 3 connector permanent link (including consolidation point).

<sup>5</sup> The part number NGC-4500-6ALKIT2 is a pair of CAT 6A Permanent Link kits: each consisting of a Cat 6A Permanent Link Adapter NGC-AD-6ALINK and a Permanent Link Test Cord NGC-AC-6ALCORD.
